INTRODUCTION

Volumes 11, 12 and 13 of the Census of Canada present data for the Census of Agriculture.

Volume 11 comprises the summary of Census of Agriculture data for Canada and reports for the provinces of Newfoundland, Prince Edward Island, Nova Scotia and New Brunswick. Volume 12 includes the reports for the provinces of Quebec and Ontario. Volume 13 includes the reports for the four Western provinces of Manitoba, Saskatchewan, Alberta and British Columbia.

A detailed account of Census of Agriculture methodology will be found in the *Administrative Report of the 1976 Census of Canada*.

Year to Which Census Figures Apply

The 1976 Census of Agriculture was taken as of June 1, 1976. Statistics for agricultural holdings — operators, areas, capital values, livestock and poultry numbers, machinery and equipment, number of year round paid agricultural workers and type of organization relate to June 1, 1976. Crop areas sown refer to the land sown on June 1, 1976 or to be sown for harvest in 1976.

The number of cows and heifers milked and pounds of milk produced yesterday refers to the full 24-hour period on the day before the questionnaire was to be completed. The destination of milk shipments refers to the month of May 1976.

Weeks of hired agricultural labour, length of residence and off-farm work all refer to the 12-month period prior to the census. Value of agricultural products sold refers to the year 1975. These time periods are used because such operations would not have been completed for 1976.

Explanation of Terms

An understanding of the terms which are explained below will permit a more meaningful use of the statistics provided by the Census of Agriculture. Particularly an understanding of the term "census-farm" is desired.

Census-farm

This term is defined in the 1976 Census as a farm, ranch or other agricultural holding of one acre or more with sales of agricultural products during the year 1975 of \$1,200 or more.

Les volumes 11, 12 et 13 du recensement du Canada présentent les données provenant du recensement de l'agriculture.

Le volume 11 renferme les résultats sommaires du recensement de l'agriculture pour le Canada et des bulletins distincts pour Terre-Neuve, l'Île-du-Prince-Édouard, la Nouvelle-Écosse et le Nouveau-Brunswick. Le volume 12 comprend des bulletins pour le Québec et l'Ontario et le volume 13 pour les quatre provinces de l'Ouest: Manitoba, Saskatchewan, Alberta et Colombie-Britannique.

Un compte rendu détaillé de la méthodologie du recensement de l'agriculture figurera dans le *Rapport administratif du recensement du Canada de 1976*.

Année à laquelle se rapportent les résultats du recensement

Le recensement de l'agriculture de 1976 a été effectué relativement au 1^{er} juin 1976. La statistique des exploitations agricoles (exploitants, superficies, valeurs en capital, bétail et volaille, machines et matériel, nombre de travailleurs agricoles rémunérés à long terme d'année et forme juridique) se rapporte au 1^{er} juin 1976. Les superficies de culture ensemencées concernent la terre ensemencée le 1^{er} juin 1976 ou à ensemer pour la récolte de 1976.

Le nombre de vaches et de génisses traitées et de livres de lait obtenues hier se rapporte à la période complète de 24 heures précédant le jour où le questionnaire devait être rempli.

Le nombre de semaines de travail agricole rémunéré, la période de résidence et le travail hors ferme portent sur les 12 mois précédant la date du recensement. La valeur des produits agricoles vendus se rapporte à l'année 1975. Ces périodes de temps sont utilisées parce que ces opérations n'auraient pas été terminées pour 1976.

Explication des termes

La compréhension des termes qui sont expliqués ci-après permettra une utilisation plus valable de la statistique fournie par le recensement de l'agriculture. Il faut bien comprendre en particulier l'expression "ferme de recensement".

Ferme de recensement

Ce terme est défini au recensement de l'agriculture de 1976 comme étant une ferme, un ranch ou toute autre exploitation agricole d'une acre ou plus dont les ventes de produits agricoles en 1975 se sont élevées à \$1,200 ou plus.

The basic unit for which a questionnaire was collected was termed the "agricultural holding". This term is defined in the 1976 Census as a farm, ranch or other agricultural holding of one acre or more with sales of agricultural products, during the 12-month period prior to the census, of \$50 or more. At Head Office, the questionnaires were divided into census-farms and small agricultural holdings. Small agricultural holdings are the remaining agricultural holdings after the census-farms have been removed.

Comparability of Data

The 1976 census-farm definition differs from that used in previous censuses. In 1971, the census-farm definition was equivalent to that of the 1976 "agricultural holding". To help users evaluate the effect of the change in definition, Table 1 presents data for both 1971 and 1976 using both definitions. All other figures relating to previous censuses in the report were derived using the 1976 census-farm definition.

The holding may consist of a single tract of land or a number of separate tracts held under the same or different tenures and operated as a single unit. Where the census-farm was made up of several parts located in different municipalities, the 1976 Census reported the complete holding as one unit in the municipality where the headquarters was located.

Operator

This term is used in the Census of Agriculture to designate the person who is responsible for the day-to-day decisions made in the operation of this holding. As only one operator is listed for each census-farm, the number of operators is the same as the number of census-farms. If, for example, the holding was operated as a partnership, only one partner was considered to be the operator.

Tenure of Land

Agricultural holdings are classified by tenure depending on whether the operator owns, rents or leases from others, or both. Area owned includes land that the operator or his wife holds under title, homestead law, purchase contract, or as an heir or trustee of any individual estate and land more or less permanently occupied by a squatter. Areas rented or leased from others include land rented or leased from others on a cash basis, rented on a share crop basis from others, areas used rent-free, and areas used under lease arrangement with federal, provincial or municipal governments. Note that land used under a per head grazing fee is not included.

L'unité de base pour laquelle un questionnaire fut recueilli s'appella "exploitation agricole". Ce terme est défini au recensement de l'agriculture de 1976 comme étant une ferme, un ranch ou toute autre exploitation agricole d'une acre ou plus dont les ventes de produits agricoles au cours des 12 mois précédant la date du recensement se sont élevées à \$50 ou plus. Au bureau central, les questionnaires furent divisés en deux groupes: fermes de recensement et petites exploitations agricoles. Les petites exploitations agricoles sont les exploitations agricoles qui restent lorsque les fermes de recensement sont extraites.

Comparabilité des données

La définition d'une ferme de recensement en 1976 diffère de celle employée aux recensements antérieurs. En 1971, la définition d'une ferme de recensement était équivalente à celle d'une "exploitation agricole" de 1976. Afin d'aider les utilisateurs dans leur évaluation de l'effet de ce changement de définition, le tableau 1 présente les données pour les années 1971 et 1976 suivant les deux définitions.

La ferme peut se composer d'une seule ou de plusieurs parcelles de terre qui ne sont pas nécessairement détenues selon le même mode d'occupation et qui sont exploitées comme unité distincte. Lorsqu'elle était composée de plusieurs sections situées dans différentes municipalités, le recensement de 1976 inscrivait l'exploitation totale comme une seule unité dans la municipalité où se trouvait le siège de l'exploitation.

Exploitant

Ce terme est utilisé dans le recensement de l'agriculture pour désigner la personne qui est responsable des décisions au jour le jour, faites dans l'exploitation agricole. Comme on n'inscrit qu'un exploitant par ferme de recensement, le nombre d'exploitants est le même que le nombre de fermes de recensement. Si, par exemple, la ferme est exploitée par des associés, un seul associé est considéré comme étant exploitant.

Mode d'occupation

Les exploitations agricoles sont classées selon qu'elles appartiennent à l'exploitant ou qu'elles sont prises en location ou les deux. La superficie possédée comprend les terres que l'exploitant ou son épouse détient en vertu d'un titre de propriété, d'une loi sur les exploitations agricoles, d'un contrat d'achat ou à titre d'héritier ou de fiduciaire d'une succession et les terres occupées de façon plus ou moins permanente par un squatter. La superficie prise en location comprend les terres prises en location moyennant paiement en espèces, les superficies exploitées à la part (en métayage), celles pour lesquelles il n'est pas payé de loyer et celles appartenant à une administration fédérale, provinciale ou municipale. Il est à noter que les terres utilisées en vertu d'un permis ou d'un droit de pacage par tête de bétail ne sont pas comprises.

In the 1976 Census, a hired manager was asked to report whether the land operated by him was owned or rented by his employer.

Farm Population

All persons living in a dwelling situated on a census-farm (as defined in the census) were considered to be farm population, regardless of their occupation. In the case of institutions located on a census-farm, only the manager, hired agricultural workers and members of their households were included with this population. The population figures given in Table 13 include both urban and rural census-farm population. Persons living on census-farms that were located in cities, towns and villages were included with the census-farm population of the adjoining rural subdivision.

Census-farm Areas

The area of census-farms reported for each subdivision represents the area of land operated by farmers whose headquarters are in the subdivision. The area of census-farms reported in Table 23 for the census subdivisions may, therefore, be greater or less than the actual agricultural area within the subdivision boundaries. For larger areal units of the provinces, that is, the census divisions, the discrepancy between reported area of census-farms and actual agricultural area will be less significant.

Crown lands, usually pasture land, which were operated under a lease arrangement with federal, provincial or municipal governments, are reported as part of the farming operation of the person to whom the land was leased. However, land which was used under a per head grazing permit or fee is not included.

Large areas of timber land or other non-agricultural land held by the operator, but operated apart from the farm business, are excluded.

Use of Land

All farm land is classified according to use under two major divisions: improved land and unimproved land.

Improved Land

The area of improved land consists of the total of the areas reported for the following four land categories: crop land, improved pasture, summer fallow and other improved land.

(1) **Crop land** – Included in this item is the total area of crop land sown or to be sown for harvest in

Au recensement de 1976, on demandait au gérant d'indiquer si la terre qu'il exploitait appartenait à son employeur ou était louée par ce dernier.

Population agricole

Toutes les personnes vivant dans un logement situé dans une ferme de recensement (selon la définition du recensement) sont considérées comme population agricole, quelle que soit leur profession. Dans le cas d'institutions situées dans une ferme de recensement, seuls le gérant, les travailleurs agricoles engagés et les membres de leur ménage sont compris dans la population agricole. Les chiffres de population qui figurent dans le tableau 13 englobent les populations agricoles urbaines et rurales. Les personnes vivant dans une ferme de recensement située dans une cité, une ville ou un village font partie de la population agricole de la subdivision rurale voisine.

Superficie des fermes de recensement

La superficie des fermes de recensement déclarée pour chaque subdivision représente la superficie des terres exploitées par les exploitants agricoles dont le siège est situé dans la subdivision. La superficie des fermes de recensement qui figure au tableau 23 pour les subdivisions de recensement peut donc être supérieure ou inférieure à la superficie agricole réelle à l'intérieur des limites des subdivisions. Pour ce qui est des unités de superficie plus grandes des provinces, c'est-à-dire des divisions de recensement, l'écart entre la superficie déclarée des fermes de recensement et la superficie agricole réelle sera moins important.

Les terres de la Couronne, habituellement des pâturages, qui étaient exploitées suivant un accord avec l'administration fédérale, provinciale ou municipale, sont déclarées comme faisant partie de l'exploitation agricole de la personne à qui la terre a été louée. Toutefois, les terres utilisées en vertu d'un permis ou d'un droit de pacage par tête de bétail ne sont pas prises en compte.

Les grandes terres à bois ou autres terres non agricoles appartenant à un exploitant, mais non exploitées comme entreprises agricoles, ne sont pas comptées.

Utilisation de la terre

Toutes les terres agricoles sont classées suivant leur utilisation dans deux catégories principales: terre améliorée et terre non améliorée.

Terre améliorée

La superficie de terre améliorée est la somme des superficies déclarées appartenant aux quatre catégories suivantes: terre en culture, pâturage amélioré, jachères et autres terres améliorées.

(1) **Terre en culture** – Cette rubrique comprend la superficie totale des terres en culture ensemencées ou à

1976. Crop land includes the total area of all field crops, plus the areas of fruits, vegetables, greenhouses, mushroom houses and nursery products (Table 16). Because some crops are reported in fractions of an acre, there may be slight differences between the sum of the individual crop acreages and the total crop land.

(2) **Improved pasture** — All land which was being used for pasture or grazing and which has had some improvements made to it in recent years is included. Improvements would include cultivation, drainage, irrigation, fertilization, seeding down or spraying.

(3) **Summer fallow** — The enumerator was instructed to include in this item land from which no crop was to be harvested during 1976, but which was to be cultivated or worked during the year for weed control and/or for moisture conservation. Areas of ploughing the crop under as green manure were enumerated as summer fallow, but land ploughed or cultivated in the summer after a crop (such as hay or fall rye) had been harvested, was to be enumerated as crop land.

(4) **Other improved land** — This item includes the area of barnyards, home gardens, lanes and roads on farms. It also includes areas of cultivated land that were lying idle, being neither summer-fallowed nor cropped, and areas of new breaking that had not been seeded to a crop.

Unimproved Land

The area of unimproved land consists of the total areas reported for (1) woodland and (2) other unimproved land.

(1) **Woodland** — This includes farm woodlots, land leased for cutting, sugar bush and cut-over land with young growth which has or will have value as timber, fuelwood or Christmas trees. The area of trees planted for wind-breaks was also to be included. It excludes large timber tracts which are run as a separate business from the farm. There is some evidence that changes in the area of this item between censuses may be due to differences in interpretation. This would be particularly true in areas of bushland.

(2) **Other unimproved land** — Areas of native pasture or hay land that had not been cultivated, brush pasture, grazing or waste land, sloughs, marsh and rocky land, etc., are all included in this item.

ensemencer pour la récolte de 1976. La terre en culture comprend la superficie totale de toutes les grandes cultures plus les superficies des fruits et les légumes, serres, champignonnières et produits de pépinière (tableau 16). Du fait que certaines cultures sont déclarées en fractions d'acre, il pourra y avoir de légères différences entre la somme des superficies cultivées et la superficie totale des terres en culture.

(2) **Pâturage amélioré** — Toute terre utilisée comme pâturage ou pacage et améliorée de quelque façon ces dernières années est comptée. Les améliorations peuvent comprendre: mise en culture, drainage, irrigation, fertilisation, ensemencement ou pulvérisation.

(3) **Jachères** — L'agent recenseur avait pour instruction de prendre en compte dans cette rubrique les terres qui n'allaient pas produire de récolte en 1976, mais qui seraient cultivées ou labourées durant l'année pour empêcher la croissance des mauvaises herbes et (ou) conserver l'humidité. Les superficies qui étaient ensemencées dans l'intention d'enfouir des cultures pour constituer de l'engrais vert ont été comptées comme jachères, mais les terres labourées ou cultivées en été après la récolte d'une culture (de foin ou de seigle d'automne, par exemple) devaient être comptées comme terres en culture.

(4) **Autres terres améliorées** — Cette rubrique comprend la superficie des basses-cours, jardins, potagers, chemins et routes dans les fermes de recensement. Elle comprend également les superficies de terre cultivée qui sont demeurées incultes, n'ayant pas été mises en jachère ni en culture et les superficies de nouveaux labours qui n'avaient pas été ensemencées en vue d'une récolte.

Terre non améliorée

La superficie de terre non améliorée représente les superficies totales de (1) terres à bois et boisés de ferme et (2) autres terres non améliorées.

(1) **Terres à bois et boisés de ferme** — Ceci comprend les terres à bois et les boisés de ferme, les terres louées pour la coupe du bois, les érablières et les terrains déboisés où se trouvent des jeunes pousses ou des arbres qui ont ou auront de la valeur comme sciages, bois de chauffage ou arbres de Noël. La superficie des brise-vent devait également être prise en compte. Ne comprend pas les grandes sections de coupe du bois exploitées indépendamment de la ferme. Il se peut que les variations de superficie à cette rubrique d'un recensement à l'autre proviennent des différences d'interprétation, notamment pour ce qui est des superficies de buissons.

(2) **Autres terres non améliorées** — Les superficies de pâturages naturels ou les terres à foin non cultivées, les pâturages en broussailles, les terres incultes ou de pacage, les marécages, les marais et les terres rocailleuses, etc., sont tous pris en compte dans cette rubrique.

Crops

The area of crops in 1976 represents the areas planted or to be planted for harvest in 1976, as reported by the respondent at the time of enumeration.

Actual harvested acreages may vary from the census report due to changes in planting intentions or crop failure which occurred after the date of enumeration. In the case of hay land, where two or more cuttings of hay are taken, the acreage was to be reported only once. Acreages from which sod is being sold are included with "other field crops".

Tree fruits were reported only when there were 25 fruit trees or more on the holding.

The area of vegetables and small cultivated fruits was to be reported only when these products were being grown mainly for sale.

Tables showing the areas of potatoes, tobacco, vegetables, fruits and nurseries may not add since these areas were originally collected in tenths of acres and were rounded to acres for this report.

The area of mushroom houses was recorded with that of greenhouses. Greenhouses which were used only for the initial growth of plants, which were later transplanted to the field are not included. Nursery products, cut flowers and dry bulbs were to be reported only when grown mainly for sale.

Livestock and Poultry

Livestock and poultry were reported on the holdings where they were located, regardless of ownership, except for livestock kept on community pastures. In this case, livestock are related to the holding of the operator owning them rather than to the community pasture.

Where an agricultural holding was located in more than one enumeration area, the location of the total holding was determined by its headquarters, regardless of the dispersion of parts of the holding. In consequence, livestock and poultry located anywhere on such a holding on June 1, 1976 were reported as though they were in the same enumeration area as the headquarters.

When reporting the number of cows and heifers kept mainly for milking purposes, the enumerators were instructed to include "cows and heifers", two years and over, milking or to be milked and "heifers",

Cultures

La superficie des cultures en 1976 représente les superficies ensemencées ou à ensemencer pour la récolte de 1976, telles que déclarées par le recensé au moment du recensement.

L'étendue réelle des superficies récoltées peut être différente de la déclaration du recensement à cause des changements dans la superficie de culture projetée ou de récoltes manquées qui se sont produits après la date du recensement. Dans le cas des terres à foin qui donnaient deux ou plusieurs récoltes, la superficie ne devait être déclarée qu'une seule fois. Les superficies dont on vend du placage d'engazonnement sont comprises dans "autres grandes cultures".

Les fruits de verger étaient déclarés seulement quand il y avait au moins 25 arbres fruitiers dans l'exploitation.

La superficie de légumes et de petits fruits cultivés devait être déclarée seulement quand ces produits étaient cultivés surtout pour la vente.

Les tableaux rapportant les superficies en pommes de terre, en tabac, en légumes, en fruits et en pépinières ne peuvent peut-être pas additionner car ces superficies furent recueillies en dixièmes d'acres et arrondies en acres pour ce bulletin.

La superficie des champignonnières a été déclarée avec celle des serres. Les serres qui servaient uniquement à faire pousser des jeunes plants qui seraient transplantés plus tard à l'extérieur ne sont pas comptées. Les produits de pépinière, les fleurs à couper et les bulbes secs ne devaient être comptés que lorsqu'ils étaient cultivés surtout pour la vente.

Bétail et volaille

Le bétail et la volaille ont été pris en compte dans la ferme où ils se trouvaient, quel qu'en fût le propriétaire, à l'exception du bétail élevé dans un pâturage communautaire. Dans ce cas, le bétail a été rattaché à l'exploitation de son propriétaire plutôt qu'au pâturage communautaire.

Si une exploitation agricole était située dans plus d'un secteur de dénombrement, la situation était déterminée d'après le siège de l'exploitation quelle que soit la dispersion des parties de l'exploitation. Par conséquent, le bétail et la volaille qui se trouvaient dans une partie quelconque d'une telle exploitation, le 1^{er} juin 1976, étaient déclarés dans le secteur de dénombrement où était situé le siège de l'exploitation.

Pour ce qui est du nombre de vaches et de génisses élevées principalement pour la production laitière, l'agent recenseur avait pour instruction de compter les "vaches et génisses", de deux ans et plus, en lactation ou devant

one year and under two years, being raised mainly for milk production regardless of whether or not they were of dairy breeding.

Milk Produced Yesterday

The number of cows and heifers milked and the pounds of milk produced were asked for the day before the questionnaire was completed, and relate to the production and cows milked for the full 24-hour period. It has been found that a recent 24-hour period is more readily recalled than a longer period.

Destination of Milk Shipments

Operators who shipped milk or cream to a milk plant or creamery in May 1976 were asked to report the destination of the milk shipments as going to a fluid milk plant, an industrial milk plant, a creamery or "do not know". The "do not know" category was included because in some areas milk shipments to various destinations are "pooled" so that the operator does not know the destination of his particular shipments.

Capital Values

This is the value of census-farm capital: land and buildings, machinery and equipment (including automobiles), livestock and poultry. Farm operators were asked to give a value for land and buildings, farm machinery and equipment on their holding regardless of tenure. The value reported was to be an estimate of the market value, not the original, replacement or assessed value.

The value of land and buildings was to be the value of the property when used for agricultural purposes. For areas surrounding cities or towns, the real estate value for non-agricultural purposes of the farm property was not to be reported.

The value to be reported for farm machinery was the present market value — that is, the amount for which the machinery and equipment would sell if there was a willing buyer and a willing seller and not a forced sale. It might be explained as the price the machine would likely bring in its present condition at an auction sale. The original or replacement value was not to be reported unless it conformed with the market value.

The total value of machinery and equipment includes the value of items not reported separately as well as the value of the machines which were reported separately.

Values for the livestock and poultry reported in the census were compiled from data on average

être traites et les "génisses", d'un an et de moins de deux ans, élevées principalement pour la production laitière qu'elles appartiennent ou non à une race laitière.

Production de lait hier

On demandait le nombre de vaches et de génisses traites et le nombre de livres de lait obtenues le jour précédant celui où l'on remplissait le questionnaire, et ce pour une période complète de 24 heures. On a constaté qu'il est plus facile pour le recensé de fournir le renseignement pour une période récente que pour une période éloignée.

Destination des livraisons de lait

Les exploitants qui expédiaient du lait ou de la crème à une laiterie ou à une beurrerie en mai 1976 devaient rapporter la destination de leurs livraisons de lait en indiquant, soit une usine de lait de consommation, une usine de lait de transformation, une beurrerie ou "ne sais pas". La catégorie "ne sais pas" fut incluse car, dans certaines régions, les livraisons de lait à diverses destinations sont mises en commun et de fait l'exploitant ne connaît pas toujours la destination de ses livraisons particulières.

Valeur en capital

Ceci est la valeur en capital de la ferme de recensement: terres et bâtiments, machines et matériel (y compris automobiles), bétail et volaille. Les exploitants de ferme devaient indiquer la valeur de la terre et des bâtiments, des machines et du matériel qui se trouvaient dans leur exploitation, quel que fût le mode d'occupation. La valeur indiquée devait être une estimation de la valeur marchande, non pas la valeur initiale, la valeur de remplacement ou la valeur imposée.

La valeur de la terre et des bâtiments devait représenter la valeur des biens utilisés à des fins agricoles. Pour ce qui est des secteurs entourant des cités ou des villes, la valeur immobilière à des fins non agricoles des fermes ne devait pas être prise en compte.

La valeur à indiquer pour les machines agricoles était la valeur marchande actuelle, c'est-à-dire le prix auquel les machines se vendraient advenant un vendeur et un acheteur libres d'effectuer la transaction. En d'autres termes, c'était le prix que la machine, dans son état actuel, rapporterait probablement à l'enchère. Ni la valeur initiale ni la valeur de remplacement ne devait être indiquée à moins qu'elle ne correspondît à la valeur marchande.

La valeur totale des machines et du matériel comprend la valeur des articles non déclarés séparément ainsi que celle des machines déclarées séparément.

Les valeurs des bestiaux et des volailles déclarées au recensement ont été tirées des données sur les valeurs

farm values for various types of livestock and poultry obtained by the Agriculture Division of Statistics Canada.

Machinery and Equipment

The number and value were to be reported for agricultural machines on the holding at the census date, regardless of whether the machines were owned by the operator or someone else. Old machines no longer being used were not to be reported. Equipment owned in partnership was to be reported on the holding where it was located.

Hired Agricultural Labour

Total weeks of paid agricultural labour (15 years and over) hired during the past 12 months were recorded. Male and female labour was recorded separately. The number of paid agricultural workers employed on a year round basis as of June 1, 1976 was also enumerated. (Housework was not included as agricultural labour.) Any person doing agricultural work on the holding for wages, salary, commission or on a piece-rate or labour contract basis was reported as paid labour. This included paid managers and members of the operator's family receiving regular or specified cash wages. Total weeks of agricultural work done by members of a Hutterite colony were included as hired agricultural labour and full-time labour of the colony was included as paid year round agricultural workers.

Off-farm Work During the Past 12 Months

Farm operators were asked to report the number of days worked off the holding at paid agricultural and non-agricultural work during the previous 12 months. Exchange work was not to be included but custom work was included for agricultural work off the holding.

Residence of Operator

The length of time the operator lived on the holding during the 12-month period prior to the census was recorded as 9-12 months, 5-8 months, 1-4 months or did not live on this holding. The number of non-resident farms in Table 22 was taken as the sum of operators reporting "did not live on this holding".

Age of Operator

The age of the operator was captured by transferring the year of birth from the operator's population questionnaire to the Agriculture Questionnaire before delivery to the Head Office.

moyennes à la ferme pour différents types de bestiaux et de volailles obtenues par la Division de l'agriculture de Statistique Canada.

Machines et matériel

Le nombre et la valeur des machines agricoles se trouvant dans l'exploitation le jour du recensement qu'elles appartiennent ou non à l'exploitant, devaient être déclarés. Les vieilles machines qui ne servent plus ne devaient pas être comptées. Le matériel possédé en commun avec un associé devait être déclaré dans l'exploitation où il se trouvait.

Main-d'oeuvre agricole engagée

Le nombre total de semaines de travail agricole payé effectué par des travailleurs âgés de 15 ans et plus au cours des 12 derniers mois a été déclaré. La main-d'oeuvre masculine et féminine a été comptée séparément. Le nombre de travailleurs agricoles rémunérés engagés à l'année au 1^{er} juin 1976 a également été indiqué. (Les travaux ménagers n'étaient pas considérés comme travail agricole.) Toute personne effectuant du travail dans l'exploitation contre salaire, traitement, commission, rémunération à la pièce ou suivant un contrat de travail, a été déclarée comme main-d'oeuvre rémunérée. Celle-ci comprend les gérants engagés et les membres de la famille de l'exploitant qui reçoivent un salaire en argent, régulier ou spécifique. Le nombre total de semaines de travail agricole exécuté par les membres d'une colonie hutterite a été compté comme semaines de travail agricole payé et les travailleurs à plein temps de la colonie ont été considérés comme travailleurs agricoles rémunérés employés toute l'année.

Travail hors ferme au cours des 12 derniers mois

On a demandé aux exploitants agricoles de déclarer le nombre de jours qu'ils ont travaillé en dehors de l'exploitation à des travaux agricoles ou non agricoles rémunérés, au cours des 12 derniers mois. Le travail d'échange n'a pas été retenu mais le travail sur commande devait être compris dans le travail agricole hors ferme.

Résidence de l'exploitant

La période durant laquelle l'exploitant avait habité dans la ferme au cours des 12 mois précédant le recensement était indiquée comme suit: 9-12 mois, 5-8 mois, 1-4 mois et n'y ai pas habité. Le nombre de fermes inhabitées au tableau 22 résulte de la somme des réponses des exploitants à la catégorie "n'y ai pas habité".

Âge de l'exploitant

L'âge de l'exploitant fut recueilli en transposant l'année de naissance de la formule de population de l'exploitant au questionnaire agricole avant la livraison au bureau central.

Type of Organization

The respondent was asked to classify the type of agricultural holding he operated as:

- (1) an individual or family,
- (2) a partnership,
- (3) an institution or community pasture,
- (4) a legally constituted company,
 - (a) with the shares owned mostly by him and his family, or
 - (b) with most of the shares owned by some other person(s) or business, or
- (5) other.

Included as operated privately by an individual were holdings operated by or for an individual regardless of whether owned, rented or managed. Land managed for an incorporated firm in conjunction with land operated by an owner or rented for his own use if the total operation was predominantly by the individual for himself, was included in this category also. Partnerships included only operations having a formalized written partnership agreement. Oral or implied agreements that were not in written form were not included as partnerships, but were typed as being operated privately by an individual. "Institution" referred to land used for agricultural purposes by institutions such as experimental farms, schools or penitentiaries, but did not include land owned by an institution but rented to an individual who operated it on his own account. A community pasture or other type of public pasture was included as an institution if the land is owned by a municipality, province or federal government. "Incorporated family" referred to farms operated as incorporated businesses with the shares owned mostly by the operator and his family. "Incorporated other" referred to farms operated as incorporated businesses with the shares owned mostly by people other than the operator and his family. Included in "other" types of organization are lands operated privately for an estate or trust company, Hutterite colonies and co-operative farms.

Sales of Agricultural Products

The method of collecting the sales information in the 1976 Census differs from previous censuses. Historically, the sales were reported by commodity. In the 1976 Census, however, the sales information was obtained by asking the operator to indicate one of several ranges which corresponded to his total sales of agricultural products during the year 1975.

Forme juridique

Le recensé devait indiquer la forme juridique de son exploitation agricole:

- (1) exploitée par une seule personne,
- (2) exploitée par des associés,
- (3) institution ou pâturage communautaire,
- (4) entreprise constituée en corporation,
 - a) dont la plupart des actions sont détenues par lui et sa famille, ou
 - b) dont la plupart des actions sont détenues par d'autres personnes ou une autre entreprise, ou
- (5) autre.

Ont été considérées comme exploitées par une seule personne les fermes exploitées par une seule personne ou pour le compte d'une seule personne, que celle-ci ait été propriétaire, locataire ou gérant. Était également comprise dans cette catégorie toute terre que l'exploitant gérait pour le compte d'une société constituée en corporation tout en exploitant une autre terre, à titre de propriétaire ou de locataire, si l'exploitation de la terre pour lui-même était l'élément prédominant. Les associations ne comprenaient que celles fondées sur une convention écrite. S'il n'y avait que des conventions orales ou tacites non fondées sur un document écrit, la ferme n'était pas considérée comme exploitée par des associés mais bien comme exploitée par une seule personne. "Institution" désignait toute terre utilisée à des fins agricoles par des établissements tels que les fermes expérimentales, les écoles ou les pénitenciers, mais ne comprenait pas les terres appartenant à un établissement mais données en location à un particulier qui l'exploitait à son propre compte. Un pâturage communautaire ou autre type de pâturage public était considéré comme institution si la terre appartenait à une municipalité, à une province ou au gouvernement fédéral. "Entreprise familiale constituée en corporation" désignait les fermes exploitées comme entreprises constituées en corporation dont la plupart des actions étaient détenues par l'exploitant et sa famille. "Autre entreprise constituée en corporation" désignait les fermes exploitées comme entreprises constituées en corporation dont la majorité des actions étaient détenues par des personnes autres que l'exploitant et les membres de sa famille. Dans "autre" forme juridique sont comprises les terres exploitées en particulier pour une succession ou un trust, pour les colonies hutterites ou pour des fermes coopératives.

Ventes de produits agricoles

La méthode de collecte des données des ventes au recensement de 1976 diffère de celle des recensements antérieurs. Précédemment, les ventes étaient déclarées selon le genre du produit. Au recensement de 1976, les données des ventes sont obtenues en demandant à l'exploitant d'indiquer à quelle classe, parmi plusieurs, appartient son total de ventes de produits agricoles de l'année 1975.

Number of Farms by Economic Class

All census-farms in 1976, except "institutional farms", such as experimental farms, community pastures and Indian Reserves (but including Hutterite colonies) were classified as one of the four major economic classes with a total of 10 breakdowns.

The classification of census-farms into economic classes (based upon the gross income received from sales of agricultural products) presents a measure of the productive size of the holdings. With the exception of "institutional farms, etc.", all census-farms are classified as one of the 10 economic classes listed below:

\$ 1,200 - \$ 2,499
2,500 - 4,999
5,000 - 9,999
10,000 - 14,999
15,000 - 24,999

It should be noted that variations in annual production and prices of agricultural products affect the economic class of individual census-farms.

Number of Farms by Product Type

Since the sales information collected in 1976 was not detailed by commodity as in the past, the method of typing individual farms used in the previous Censuses of Agriculture became impossible. The 1976 farm typing scheme is based on the potential value of sales by commodities. This potential value of sales was imputed by applying value coefficients to the 1976 physical inventory reported for the census-farm. The value coefficients were derived from the average value per unit of inventories for every census division over a specified period of time.

This method differs from the previous farm typing method in that the previous method was based on realized value of agricultural sales from the previous year.

With the exception of the above-mentioned "institutional farms, etc." all census-farms in 1976 with \$2,500 or more of agricultural sales were classified as one of the 10 major product types. Generally, the product types are the same as in previous censuses. The major differences in types compared with the previous censuses are the deletion of the forestry type of farm and the division of the cattle-hog-sheep type into "cattle" and "hogs". The small number of sheep farms is included with "miscellaneous specialty". The criterion of 51.0% or more of the total potential sales was used for the classification. For example, a farm was typed as poultry farm if 51.0% or more of the total potential sales of this holding were obtained from poultry and poultry products.

Nombre de fermes selon la catégorie économique

Toutes les fermes de recensement en 1976, sauf les "fermes d'institution", les pâturages communautaires et les réserves indiennes (mais incluant les colonies huttérites) sont classées en quatre grandes catégories économiques avec un total de 10 répartitions.

Les fermes de recensement sont classées en catégories économiques (fondées sur la valeur totale des ventes de produits agricoles), ce qui permet de mesurer la taille productive des exploitations. À l'exception des "fermes d'institution, etc.", toutes les fermes de recensement sont classées dans l'une des 10 catégories économiques suivantes:

\$ 25,000 - \$34,999
35,000 - 49,999
50,000 - 74,999
75,000 - 99,999
100,000 or more — et plus

Il est à noter que les variations de la production annuelle et du prix des produits agricoles influent sur la catégorie économique des fermes de recensement.

Nombre de fermes selon le genre du produit

Puisque les données des ventes recueillies en 1976 n'étaient pas détaillées selon le genre du produit comme dans le passé, la méthode de classement des fermes individuelles employée aux recensements antérieurs de l'agriculture devient impossible. Le projet de 1976 du classement des fermes se base sur la valeur potentielle des ventes selon le genre du produit. La valeur potentielle des ventes est fondée en appliquant des coefficients de valeur à l'inventaire physique de 1976 inscrit pour la ferme de recensement. Les coefficients de valeur sont calculés d'après la valeur moyenne par unité d'inventaire pour chaque division de recensement durant une période spécifiée de temps.

Cette méthode de classement des fermes selon le genre du produit diffère de la précédente en ce que la méthode précédente était basée sur la valeur produite par les ventes de produits agricoles de l'année antérieure.

Toutes les fermes de recensement en 1976 (sauf les "fermes d'institution, etc.") dont les ventes de produits agricoles ont été de \$2,500 ou plus sont classées suivant 10 grands genres de produits. Généralement, les genres de produits sont les mêmes qu'aux recensements antérieurs. Les différences à noter dans les genres de produits comparables aux recensements antérieurs sont la suppression du genre d'exploitation forestière et la division du genre "bovins, porcs, moutons" en celui de "bovins" et de "porcs". Le petit nombre de fermes ovines est compris dans le genre "spécialités diverses". Le critère de classement était une proportion de 51.0 % ou plus des ventes potentielles. Par exemple, une ferme est une ferme avicole si ses ventes de produits avicoles représentent 51.0 % ou plus du potentiel de ses ventes de produits agricoles.

Under this criterion, it may be possible for the farm to qualify for more than one product type. To avert this problem, the 10 product types were given a priority rating in the order they are listed below:

Dairy

(a) Fifty-one per cent or more of the total potential value of agricultural products sold obtained from dairy production; or (b) forty per cent to 50.9% of the total potential value of agricultural products sold obtained from dairy production, provided that the value of dairy production together with the value obtained from cattle and calves amount to 51.0% or more of the total potential value of agricultural products sold.

Cattle (excluding farms qualifying as dairy)

Fifty-one per cent or more of the total potential value of agricultural products sold obtained from cattle.

Hogs

Fifty-one per cent or more of the total potential value of agricultural products sold obtained from hogs.

Poultry

Fifty-one per cent or more of the total potential value of agricultural products sold obtained from poultry.

Wheat

Fifty-one per cent or more of the total potential value of agricultural products sold obtained from wheat (spring, durum and winter).

Small Grains (excluding farms qualifying as wheat)

Fifty-one per cent or more of the total potential value of agricultural products sold obtained from all grains, including wheat, oats, barley, rye, mixed grains, buckwheat, corn for grain, soybeans, sunflowers, rapeseed and mustard seed.

Field Crops, Other than Small Grains

Fifty-one per cent or more of the total potential value of agricultural products sold obtained from forage seed, potatoes, sugar beets, tobacco and field crops not elsewhere specified.

Fruits and Vegetables

Fifty-one per cent or more of the total potential value of agricultural products sold obtained from vegetable seeds, vegetables (excluding potatoes), tree

Avec ce critère, il était possible qu'une ferme soit classée suivant plus d'un genre de produit. Afin d'éviter ce problème, les 10 genres de produits ont été classés suivant l'ordre de priorité ci-après:

Produits laitiers

a) Cinquante et un pour cent ou plus de la valeur totale potentielle des produits agricoles vendus provenant de la production laitière: ou b) quarante pour cent à 50.9 % de la valeur totale potentielle des produits agricoles vendus provenant de la production laitière, pourvu que les ventes de produits laitiers ajoutées à celles de gros bovins et de veaux représentent 51.0 % ou plus de la valeur totale potentielle des produits agricoles vendus.

Bovins (sans les fermes laitières)

Cinquante et un pour cent ou plus de la valeur totale potentielle des produits agricoles vendus provenant de la vente de bovins.

Porcs

Cinquante et un pour cent ou plus de la valeur totale potentielle des produits agricoles vendus provenant de la vente de porcs.

Volaille

Cinquante et un pour cent ou plus de la valeur totale potentielle des produits agricoles vendus provenant de la vente de produits avicoles.

Blé

Cinquante et un pour cent ou plus de la valeur totale potentielle des produits agricoles vendus provenant de la vente de blé (de printemps, durum et d'hiver).

Menus grains (sauf les fermes à blé)

Cinquante et un pour cent ou plus de la valeur totale potentielle des produits agricoles vendus provenant de la vente de tous grains, y compris le blé, l'avoine, l'orge, le seigle, les céréales mélangées, le sarrasin, le maïs-grain, le soya, le tournesol, le colza et la graine de moutarde.

Grandes cultures, autres que menus grains

Cinquante et un pour cent ou plus de la valeur totale potentielle des produits agricoles vendus provenant de la vente de semences de cultures fourragères, de pommes de terre, de betteraves sucrières, de tabac et des grandes cultures non classées ailleurs.

Fruits et légumes

Cinquante et un pour cent ou plus de la valeur totale potentielle des produits agricoles vendus provenant de la vente de légumes et semences de légumes (sans les

fruits and small fruits (including berries, grapes and other small cultivated fruits).

Miscellaneous Specialty

Fifty-one per cent or more of the total potential value of agricultural products sold obtained from greenhouse and nursery products, cut flowers, dry bulbs and mushrooms; or sheep, horses of all ages; or honey and beeswax, fur-bearing animals and pelts, goats and goat's milk.

Mixed Farm

(a) **Livestock combination** – Fifty-one per cent or more of the total potential value of agricultural products sold obtained from the livestock and livestock products. Items included are dairy production, cattle, hogs, sheep, poultry and other livestock.

(b) **Field crops combination** – Fifty-one per cent or more of the total potential value of agricultural products sold obtained from all field crops.

(c) **Other combinations** – This is a residual group and includes all farms not qualifying for one of the product types listed above.

Supplemental Product Type

(a) **Cattle-hogs-sheep (excluding farms qualifying as dairy)** – Fifty-one per cent or more of the total potential value of agricultural products sold obtained from cattle, hogs and sheep.

(b) **Cattle-hogs (excluding farms qualifying as cattle or hogs)** – Fifty-one per cent or more of the total potential value of agricultural products sold obtained from the combination of cattle and hogs.

Enumeration of Hutterite Colonies

Workers on the Hutterite farms were reported as paid workers even though they receive no wages. In tables which show weeks of paid labour and number of paid year round workers, the numbers on Hutterite colonies are included in the totals.

Hutterite farms are included with other census-farms in the economic classification of farms and are not included with institutional-type farms.

pommes de terre), de fruits de verger et de petits fruits (y compris les baies, les raisins et les autres petits fruits cultivés).

Spécialités diverses

Cinquante et un pour cent ou plus de la valeur totale potentielle des produits agricoles vendus provenant de la vente de produits de serre et de pépinière, de fleurs coupées, de bulbes secs et de champignons; ou de la vente de moutons et de chevaux de tous âges; ou de la vente de miel et de cire d'abeille, d'animaux à fourrures et de peaux, de chèvres et de lait de chèvre.

Ferme diversifiée

a) **Combinaison de bétail** – Cinquante et un pour cent ou plus de la valeur totale potentielle des produits agricoles vendus provenant des ventes de bétail et des produits du bétail. Sont compris la production laitière, les bovins, porcs, moutons, la volaille et les autres bestiaux.

b) **Combinaison de grandes cultures** – Cinquante et un pour cent ou plus de la valeur totale potentielle des produits agricoles vendus provenant de la vente de toutes les grandes cultures.

c) **Autres combinaisons** – Groupe résiduel qui comprend toutes les fermes qui ne peuvent être classées suivant l'un ou l'autre des genres de produits susmentionnés.

Genre de produits supplémentaires

a) **Bovins-porcs-moutons (sans les fermes laitières)** – Cinquante et un pour cent ou plus de la valeur totale potentielle des produits agricoles vendus provenant de la vente des bovins, porcs et moutons.

b) **Bovins-porcs (sans les fermes bovines ou porcines)** – Cinquante et un pour cent ou plus de la valeur totale potentielle des produits agricoles vendus provenant de la vente de la combinaison de bétail et de porcs.

Recensement des colonies huttérites

Les travailleurs des fermes huttérites ont été déclarés comme travailleurs rémunérés même s'ils ne reçoivent pas de salaire. Aux tableaux qui montrent le nombre de semaines de travail payé et le nombre de travailleurs agricoles rémunérés employés toute l'année, les nombres se rapportant aux colonies huttérites sont compris dans les totaux.

Les fermes huttérites sont comprises avec les fermes de recensement dans la classification économique des fermes et non pas avec les fermes d'institution.

Enumeration of Community Pastures

Community pastures were enumerated in the municipality in which the headquarters of the pasture was located. The complete pasture was enumerated on one questionnaire.

Livestock kept on the community pasture for other farm operators were not to be reported on the questionnaire completed for the community pasture. Such livestock were reported on the census-farm of the person who owned them.

Community pastures were classed as institutional-farms.

Conversion of "Imperial" to "Metric".

This report presents area data in metric (hectares) as well as imperial (acres) units. This conversion from acres to hectares was made by Statistics Canada using the factor 0.404 685 6 hectare equals one acre. Where areas are reported in square feet, the metric equivalent used is square metres. The conversion factor is 0.092 903 04 square metre equals one square foot.

This report presents milk production data in metric (kilograms) units as well as imperial (pounds) units. The conversion from pounds to kilograms was made by Statistics Canada using the factor 0.543 592 37 kilogram equals one pound. Some of the metric figures may not add because of rounding.

Conversion of Arpents to Acres

In some sections of the province of Quebec, the land measure is the "arpent" and the respondent reported land areas in this unit. The conversion to acres was made in Statistics Canada using the factor 1,000 arpents equal 845 acres.

Availability of Data

To make Census of Agriculture data more accessible to the user, an Agriculture Data Directory will be published (Catalogue 96-870). The directory identifies the data available and indicates the form(s) in which they may be obtained: whether microfilm, microfilm photocopy, or computer summary tapes. User-specified tabulations are also available at cost. For further information contact: Census of Agriculture Division, Statistics Canada, Ottawa.

Limits Imposed by Confidentiality

All data released by the Census of Agriculture are subject to the confidentiality restrictions of Statistics Canada. Thus, to prevent the disclosure of confi-

Dénombrement des pâturages communautaires

Les pâturages communautaires ont été dénombrés dans la municipalité où le siège du pâturage était situé. Le pâturage complet a été déclaré sur un seul questionnaire.

Les bestiaux élevés dans les pâturages communautaires pour le compte d'autres exploitants agricoles ne devaient pas être déclarés sur le questionnaire du pâturage communautaire, mais plutôt sur celui de la ferme de recensement de leur propriétaire.

Les pâturages communautaires ont été classés comme fermes d'institution.

Conversion d'"impérial" à "métrique"

Ce bulletin présente les données de superficie en unités métriques (hectares) ainsi qu'en unités impériales (acres). La conversion d'acres en hectares a été faite à Statistique Canada en employant le facteur 0.404 685 6 hectare égale une acre. Quand les superficies sont déclarées en pieds carrés, l'équivalent métrique employé est le mètre carré. Le facteur de conversion est 0.092 903 04 mètre carré égale un pied carré.

Ce bulletin présente les données de la production de lait en unités métriques (kilogrammes) ainsi qu'en unités impériales (livres). La conversion de livres en kilogrammes a été faite à Statistique Canada en employant le facteur 0.543 592 37 kilogramme égale une livre. Certains chiffres métriques ayant été arrondis, leur somme peut ne pas additionner aux totaux indiqués.

Conversion des arpents en acres

Dans certaines régions du Québec, l'aire est mesurée en "arpents" et le recensé exprime l'étendue des superficies dans cette unité de mesure. La conversion en acres a été faite à Statistique Canada en utilisant le facteur suivant: 1,000 arpents égalent 845 acres.

Disponibilité des données

Pour rendre les données du recensement de l'agriculture de 1976 plus accessibles à l'utilisateur, un Répertoire des données agricoles sera publié (n° 96-870 au catalogue). Le répertoire précise les données qui sont disponibles et indique sous quelle(s) forme(s) elles le sont: microfilm, photocopie de microfilm ou bande sommaire mécanographique. Les totalisations spécifiées par les utilisateurs aussi sont disponibles au prix coûtant. Pour de plus amples détails, veuillez contacter la Division du recensement de l'agriculture, Statistique Canada, Ottawa.

Restrictions imposées par le caractère confidentiel des données

Toutes les données du recensement de l'agriculture sont soumises aux restrictions qu'impose Statistique Canada pour en préserver le caractère confidentiel. Par

dential material, data for areas with less than 10 farms will generally not be published but merged with a geographically neighbouring area. Also, certain data have been suppressed to prevent disclosure of the operations of an identifiable individual agricultural holding. In such cases, it will be found that totals for the particular tables involved do not add.

Quality of Census Data

The 1976 Census of Agriculture was designed to obtain complete and accurate data from all census-farms in Canada. Any statistical survey, including this census, is, however, subject to errors which are due to a variety of causes, such as enumerator errors, non-response and misunderstanding on the part of the respondent of the information required. Such errors may result in undercoverage, or less likely, over-coverage of farms as well as incomplete or inaccurate data for farms which were correctly included. When data for individual farms are aggregated to provide statistics for geographical areas or other relatively large groups of farms, some of these errors may cancel one another. On the other hand, some errors (for example, coverage errors) tend to occur systematically, and result in inflated or reduced statistics. Although it is difficult to measure the effects of such non-sampling errors, an attempt has been made. An independent sample survey was conducted in July 1976, one month after the census, and from it, estimates were generated which could be compared to the census figures. The results of these comparisons will be published in a later bulletin.

conséquent, pour empêcher la divulgation de renseignements secrets, les données sur les régions comportant moins de 10 exploitations agricoles ne seront généralement pas publiées mais seront incorporées à celles d'une région avoisinante. De même, certaines données ont été supprimées de façon à éviter la divulgation des opérations d'une exploitation agricole identifiable. Pour ces cas particuliers, vous trouverez que les totaux de certains tableaux ne correspondent pas.

Qualité des données du recensement

Le recensement de l'agriculture de 1976 fut conçu pour obtenir les données complètes et précises sur toutes les fermes de recensement au Canada. Toute enquête statistique, y compris ce recensement, est toutefois entachée d'erreurs inhérentes: erreurs de l'agent recenseur, non-réponse et mauvaise compréhension des questions de la part du répondant. Ces erreurs, rapportées comme erreurs d'observations, peuvent produire des chiffres inférieurs, ou encore, mais invraisemblablement, supérieurs au nombre de fermes ainsi que des données incomplètes ou inexactes pour les fermes déjà correctement comprises. Lorsque les données des fermes individuelles sont agrégées pour fournir des statistiques par région géographique ou par autre grand groupe de fermes, certaines de ces erreurs s'annulent. Par contre, certaines erreurs (par exemple, de couverture) ont tendance à survenir systématiquement et résultent en statistiques atténuées. Malgré les difficultés, une tentative a été faite afin de mesurer les effets des erreurs d'observations. Un sondage indépendant fut mené en juillet 1976, un mois après le recensement, et des estimations en furent tirées pour comparer avec les chiffres du recensement. Les résultats de ces comparaisons seront publiés dans un futur bulletin.

TABULAR SECTION

(1) Defined as a census-farm in the 1971 Census of Agriculture (see "Introduction"). — Constitue une ferme de recensement pour le recensement de l'agriculture de 1971 (voir "Introduction").

(2) Classified as "small agricultural holdings" in the 1976 Census of Agriculture due to the low value of agricultural products sold. — Classées comme "petites exploitations agricoles" pour le recensement de l'agriculture de 1976, étant donné la faible vente de produits agricoles.

(3) Defined as a census-farm in the 1976 Census of Agriculture (see "Introduction"). — Constitue une ferme de recensement pour le recensement de l'agriculture de 1976 (voir "Introduction").

(4) Includes field, vegetable, fruit and nursery crop land. — Comprend la terre à grandes cultures, à légumes, à fruits et à pépinières.

(5) Includes green feed, hay or ensilage. — Comprend le fourrage vert, le foin ou l'ensilage.

(6) Grown mainly for sale. — Cultivés surtout pour la vente.

(7) On farms having 25 or more fruit trees. — Dans les fermes possédant 25 arbres fruitiers ou plus.

(8) Includes agricultural and non-agricultural work off the operator's farm. — Comprend le travail agricole et non agricole en dehors de la ferme de l'exploitant.

(1) Comprend les fermes classées "fermes d'institution, etc.".

(2) Comprend la terre à grandes cultures, à légumes, à fruits et à pépinières.

(3) Comprend le fourrage vert, le foin ou l'ensilage.

(4) Cultivés surtout pour la vente.

(5) Dans les fermes possédant 25 arbres fruitiers ou plus.

(6) Comprend le travail agricole et non agricole en dehors de la ferme de l'exploitant.

(1) Ne comprend pas les "fermes d'institution, etc."

(2) Les données relatives à 1 ferme de la subdivision C sont comprises dans la subdivision B.

(3) Les données relatives à 2 fermes de la subdivision A et 5 fermes de la subdivision C sont comprises dans la subdivision D.

(4) Les données relatives à 4 fermes de la subdivision A sont comprises dans la subdivision B.

(5) Les données relatives à 4 fermes de la subdivision B et 6 fermes de la subdivision C sont comprises dans la subdivision A.

(6) Les données relatives à 5 fermes de Barrington sont comprises dans Shelburne.

(7) Les données relatives à 4 fermes de la subdivision A sont comprises dans la subdivision B.

Table 23. Population, Capital, Use of Land and Machinery on Census-farms, 1976, by Subdivision

| No. | Subdivision | Farm population — Population agricole | Farm capital — Capital agricole | | | |
|-----|---------------------------------------------------------|---------------------------------------------|-----------------------------------|-----------------------------------------------|------------------------------------------------------|--------------------------------------------------|
| | | | Total value — Valeur totale | Land and buildings — Terre et bâtiments | Machinery and equipment — Machines et matériel | Livestock and poultry — Bétail et volaille |
| | | No. — nbre | dollars | | | |
| 1 | Nova Scotia — Nouvelle-Écosse..... | 12,479 | 376,837,096 | 264,974,619 | 65,764,960 | 46,097,517 |

(1) Includes field, vegetable, fruit and nursery crop land.

(2) Data for 1 farm from Subdivision C are included in Subdivision B.

(3) Data for 2 farms from Subdivision A and 5 farms from Subdivision C are included in Subdivision D.

(4) Data for 4 farms from Subdivision A are included in Subdivision B.

(5) Data for 4 farms from Subdivision B and 6 farms from Subdivision C are included in Subdivision A.

(6) Data for 5 farms from Barrington are included in Shelburne.

(7) Data for 4 farms from Subdivision A are included in Subdivision B.

Tableau 23. Population, biens capitaux, utilisation de la terre et machines agricoles dans les fermes de recensement, 1976, par subdivision – fin

| Use of land – Utilisation de la terre | | | | | | | Automobiles | Trucks – Camions | Tractors – Tracteurs | Grain combines – Moisson- neuses- batteuses | Hay balers – Presses ramas- seuses à foin | Farms reporting milking machines – Fermes déclarant des trayeuses | No | |

(1) Comprend la terre à grandes cultures, à légumes, à fruits et à pépinières.

(2) Les données relatives à 1 ferme de la subdivision C sont comprises dans la subdivision B.

(3) Les données relatives à 2 fermes de la subdivision A et 5 fermes de la subdivision C sont comprises dans la subdivision D.

(4) Les données relatives à 4 fermes de la subdivision A sont comprises dans la subdivision B.

(5) Les données relatives à 4 fermes de la subdivision B et 6 fermes de la subdivision C sont comprises dans la subdivision A.

(6) Les données relatives à 5 fermes de Barrington sont comprises dans Shelburne.

(7) Les données relatives à 4 fermes de la subdivision A sont comprises dans la subdivision B.

(1) Cows and heifers, 2 years and over, milking or to be milked.

(2) 5 months and over, kept for laying.

(3) Grown mainly for sale.

(4) Data for 1 farm from Subdivision C are included in Subdivision B.

(5) Data for 2 farms from Subdivision A and 5 farms from Subdivision C are included in Subdivision D.

(6) Data for 4 farms from Subdivision A are included in Subdivision B.

(7) Data for 4 farms from Subdivision B and 6 farms from Subdivision C are included in Subdivision A.

(8) Data for 5 farms from Barrington are included in Shelburne.

(9) Data for 4 farms from Subdivision A are included in Subdivision B.

(1) Vaches et génisses de 2 ans et plus, en lactation ou devant être traitées.

(2) 5 mois et plus, gardées pour la ponte.

(3) Cultivées surtout pour la vente.

(4) Les données relatives à 1 ferme de la subdivision C sont comprises dans la subdivision B.

(5) Les données relatives à 2 fermes de la subdivision A et 5 fermes de la subdivision C sont comprises dans la subdivision D.

(6) Les données relatives à 4 fermes de la subdivision A sont comprises dans la subdivision B.

(7) Les données relatives à 4 fermes de la subdivision B et 6 fermes de la subdivision C sont comprises dans la subdivision A.

(8) Les données relatives à 5 fermes de Barrington sont comprises dans Shelburne.

(9) Les données relatives à 4 fermes de la subdivision A sont comprises dans la subdivision B.

Table 25. Census-farm Data Classified by Economic Class of Farm(1)

(1) See "Introduction" for explanation of terms.

(2) Includes field, vegetable, fruit and nursery crop land.

(3) Includes green feed, hay or ensilage.

(4) Grown mainly for sale.

(5) On farms having 25 or more fruit trees.

(6) Includes agricultural and non-agricultural work off the operator's farm.

(1) Voir "Introduction" pour l'explication des termes.

(2) Comprend la terre à grandes cultures, à légumes, à fruits et à pépinières.

(3) Comprend le fourrage vert, le foin ou l'ensilage.

(4) Cultivés surtout pour la vente.

(5) Dans les fermes possédant 25 arbres fruitiers ou plus.

(6) Comprend le travail agricole et non agricole en dehors de la ferme de l'exploitant.

(1) See "Introduction" for explanation of terms.

(2) Includes field, vegetable, fruit and nursery crop land.

(3) Includes green feed, hay or ensilage.

(4) Grown mainly for sale.

(5) On farms having 25 or more fruit trees.

(6) Includes agricultural and non-agricultural work off the operator's farm.

(1) Voir "Introduction" pour l'explication des termes.

(2) Comprend la terre à grandes cultures, à légumes, à fruits et à pépinières.

(3) Comprend le fourrage vert, le foin ou l'ensilage.

(4) Cultivés surtout pour la vente.

(5) Dans les fermes possédant 25 arbres fruitiers ou plus.

(6) Comprend le travail agricole et non agricole en dehors de la ferme de l'exploitant.

1976 CENSUS OF AGRICULTURE

Agriculture Questionnaire No. **OCCUPIED DWELLINGS ON THIS HOLDING**
*From "Visitation Record"*Farm operator's Household number 003
Other Household number(s) 004
005
No occupied dwelling on this holding 105 ☐**INSTRUCTIONS****Aux francophones:**

Si ce questionnaire anglais vous a été remis par erreur et si vous désirez un questionnaire français, veuillez demander à la téléphoniste le numéro ZENITH 0-1976; elle vous mettra en communication, sans frais, avec le bureau de recensement le plus près, qui vous fera parvenir la version française du questionnaire.

Please note:

- Complete this questionnaire if you operate a farm, ranch or other agricultural holding of
- one acre or more with
- sales of agricultural products during the past 12 months of \$50 or more.
- Agricultural products include any of the following:
 - livestock and poultry
 - vegetables, fruits or berries for sale
 - animal products
 - mushrooms, greenhouse and nursery products
 - field crops
 - fur-bearing animals
- The operator is the person responsible for the day-to-day decisions made in the operation of the holding.
- For Telephone Assistance, call the long distance operator and ask for ZENITH 0-1976; and you will be connected to the nearest Census Office, without charge.

Remember:

- Please complete this questionnaire on June 1, 1976. Then keep it for the Census Representative. Do not mail.
- Answer all questions that apply to your holding. Mark the "No" and "None" boxes, where they apply, with an "X".
- Use your records, if you can. Otherwise, enter the best estimate possible.
- Do not report fractions of acres except where space has been provided to report fractions in tenths of acres.
Example: 2½ acres of tobacco 2 $\frac{5}{10}$
- In some areas of the Province of Quebec the land is surveyed in arpents. If your holding is in these areas, mark "Arpents" at the top of the questionnaire and answer the area questions in arpents.

It's Confidential

"The 1976 Census is taken under the provisions of the Statistics Act. The information you give will be kept secret and used only to produce statistics. The Act ensures that no one will know what answers you gave except for sworn employees of Statistics Canada and they are subject to legal penalties if they disclose personal census information to anyone else. No other individual and no other government department is permitted access to your census questionnaire."

Section I - OPERATOR, JUNE 1, 1976

- 1. Name and address of the operator**
- (Person in charge of this holding - owner, tenant, or hired manager)

| | | | |
|---------------------------------------|--------------------------------------------------|--|-------------|
| Family or last name (Print) | | | |
| Usual first name and initials (Print) | | | |
| Address (Print) | P.O. Box No., R.R. No. or name of road or street | | |
| | Name of post office | | Postal code |
| Social Insurance Number | Telephone Number | | |

Section II - LOCATION, AREA, TENURE AND VALUE, JUNE 1, 1976

- 2. Location**
- List each lot, section or part separately. Include all land operated, whether owned, rented or leased from others. Do not include land owned by you, but rented to others. Record
- headquarters**
- (main buildings or main gate) on top line. If more space is required, continue in the "Comments" section or add a separate list.

AREA AND DESCRIPTION OF LAND YOU OPERATE

| Quarter and section (a) | Township (b) | Range (c) | Meridian (d) | Owned; rented or leased from others (state which) (e) | Area in acres (f) |
|----------------------------|-----------------------|--------------|-----------------|-------------------------------------------------------------------|----------------------|
| Headquarters → | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| Lot No. ↑ | Range or concession ↑ | | | | 006 |

- 3. What is the total area of all land you operate?**
-
-
- (This is the total area of land recorded in Question 2.)

- 4. Tenure summary**
- of land you operate (Question 2, columns (e) and (f))

Enter (a) Area owned (Do not include land you rent to others)

(b) Area rented or leased from others (Include land worked by you on shares)
(The total of (a) and (b) must equal the total acreage in Question 3.)

- 5. What is your estimate of the present market value of the buildings and land you operate?**
- (Question 3)
-
- (Include the value of the farm dwellings and the value of land and buildings rented from others.)

009 \$ /00
(dollars only)

Section III - AREA OF FIELD CROPS, 1976

Enter the area seeded or to be seeded for harvest in 1976 of the following field crops:

| | Acres |
|---------------------------------------------------------------------------------------------------------------------|-------|
| 6. Spring sown wheat (Do not include durum) | 010 |
| 7. Durum wheat | 011 |
| 8. Winter wheat (sown last fall) | 012 |
| 9. Oats for grain (Report oats to be cut for green feed, hay or ensilage in Question 21) | 013 |
| 10. Barley | 014 |
| 11. Mixed grains (two or more grains sown together) | 015 |
| 12. Fall rye for grain (sown last fall) | 016 |
| 13. Spring rye for grain | 017 |
| 14. Buckwheat | 018 |
| 15. Dry field peas (Report canning peas in Question 32) | 019 |
| 16. Dry field beans | 020 |
| 17. Corn for grain (Report corn for ensilage or fodder in Question 18, sweet and canning corn in Question 32) | 021 |
| 18. Corn for ensilage or fodder | 022 |
| 19. Alfalfa and alfalfa mixtures cut or to be cut for hay, ensilage or seed | 023 |
| 20. All other tame hay cut or to be cut for hay, ensilage or seed (Do not include alfalfa and alfalfa mixtures) .. | 024 |
| 21. Oats to be cut for green feed, hay or ensilage | 025 |
| 22. Other fodder crops (to be cut for grain hay, green feed or ensilage) Name | 026 |
| 23. Flaxseed | 027 |
| 24. Soybeans for beans | 028 |
| 25. Sunflowers for seed | 029 |
| 26. Rapeseed | 030 |
| 27. Mustard seed | 031 |
| 28. Potatoes grown mainly for sale | 032 |
| 29. Tobacco | 033 |
| 30. Sugar beets for sugar | 034 |
| 31. Other field crops (safflower, root crops for feed, etc.) Name | 035 |

Section IV - OTHER AREAS

Enter the area in 1976 of the following:

| | | |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-------------|
| 32. Vegetables grown mainly for sale | 036 | 10 |
| 33. Tree fruits (25 or more trees bearing or non-bearing) | 037 | 10 |
| 34. Small fruits (strawberries, grapes, etc.) grown mainly for sale Name | 038 | 10 |
| 35. Nursery products, cut flowers and dry bulbs grown out of doors mainly for sale | 039 | 10 |
| 36. Greenhouses and mushroom houses | 040 | square feet |
| 37. Improved land for pasture or grazing (improved by seeding, draining, irrigating, fertilizing, or brush or weed control. Exclude area to be cut this year for hay, ensilage or seed) | 041 | |
| 38. Summer fallow | 042 | |
| 39. Other improved land (barnyards, lanes, home gardens, improved idle land, etc.) | 043 | |
| 40. Woodland (woodlots, sugar bush, treed wind-breaks, cut-over land, etc.) | 044 | |
| 41. Other unimproved land (unimproved hay land, native pasture, sloughs, marshes, etc.) | 045 | |
| 42. Total of Questions 6 to 41 (This total must equal the total area of the holding, Question 3) | | |

SECTION V - LIVESTOCK ON THIS HOLDING, JUNE 1, 1976

(Include livestock being pastured or fed for others; also include animals owned by you and being kept on community pastures.)

CATTLE

43. Total cattle and calves None ☐
(If "none" skip to Question 50.)

(a) Cows and heifers, 2 years and over

(b) Heifers, 1 year and under 2

(c) Steers, 1 year and over

(d) Bulls, 1 year and over

(e) Calves, under 1 year
(The total of Questions (a) to (e) must equal the number given for Question 43.)

OF THE COWS AND HEIFERS REPORTED ABOVE, HOW MANY ARE:

44. Cows and heifers, 2 years and over, milking or to be milked?

45. Heifers, 1 year and under 2, being raised mainly for milk production?

MILK PRODUCED YESTERDAY:

46. How many cows and heifers were milked yesterday?

47. How many pounds of milk were produced yesterday?

MILK SHIPMENTS, MAY 1976

48. Did you ship milk and/or cream to a milk plant or creamery in May? { No ☐ - If "No" skip to Question 50
Yes ☐ - Answer Question 49

49. Where did you ship most of your milk and/or cream in May? (Mark an "X" in appropriate box.)

1. ☐ Fluid milk plant 2. ☐ Industrial milk plant 3. ☐ Creamery for butter 4. ☐ Do not know 056

PIGS

50. Total pigs (all ages) None ☐
(If "none" skip to Question 52.)

(a) Pigs, 6 months and over (include sows, boars and market pigs)

(b) Pigs, 3 months and under 6 months

(c) Pigs, under 3 months (born since March 1)
(The total of Questions (a) to (c) must equal the number given for Question 50.)

51. Of the pigs 6 months and over (Question 50 (a)), how many are sows kept for breeding purposes? (Include bred gilts)

SHEEP

52. Total sheep and lambs None ☐
(If "none" skip to Question 53.)

(a) Lambs, under 1 year

(b) Ewes, rams and wethers, 1 year and over
(The total of Questions (a) and (b) must equal the number given for Question 52.)

OTHER LIVESTOCK

53. Kind and number of other livestock (horses, goats, mink, rabbits, chinchillas, etc.) Name None ☐

Section VI - POULTRY, JUNE 1, 1976

HENS AND CHICKENS

54. Total chickens (hens, pullets, roosters, chicks, etc., include broilers) None ☐
(If "none" skip to Question 58.)

55. Hens and pullets, for laying:

(a) Hens and pullets, 5 months and over, kept for laying

(b) Pullets and pullet chicks, under 5 months, intended for laying

56. Other chickens for meat production under quota:

(a) Broilers including Cornish (all ages)

(b) Roasters (all ages)

57. All other hens and chickens
(The total of Questions 55 to 57 must equal the number given for Question 54.)

OTHER POULTRY

58. Turkeys (all ages) None ☐

59. Geese (all ages) None ☐

60. Ducks (all ages) None ☐

Section VII - MACHINERY AND EQUIPMENT, JUNE 1, 1976

Enter number and present market value for the following machines and equipment on your holding on **JUNE 1, 1976** no matter who owned them. Do not include old machines no longer in use.

61. Automobiles
62. Motor trucks
63. Tractors (other than garden tractors)
64. Grain combines: (a) Self-propelled
- (b) Pull type
65. Swathers: (a) Self-propelled
- (b) Other
66. Pick-up hay balers
67. Forage crop harvesters
68. Milking machines
69. Bulk milk tank
70. Value of other machinery and equipment
- (Tillage machinery, seeders, tractor attachments, manure spreaders, mowers, conditioners, rakes, sprayers, threshing machines, irrigation equipment, potato machinery, wagons, trailers, small tools, etc.)
71. Total value of all machinery and equipment
- (Total of values reported in Questions 61 to 70.)

| Number | Present market value |
|--------|----------------------|
| | (dollars only) |
| 075 | \$ /00 |
| 076 | \$ /00 |
| 077 | \$ /00 |
| 078 | \$ /00 |
| 079 | \$ /00 |
| 080 | \$ /00 |
| 081 | \$ /00 |
| 082 | \$ /00 |
| 083 | \$ /00 |
| 084 | \$ /00 |
| 085 | \$ /00 |
| 086 | 087 \$ /00 |
| | 088 \$ /00 |

Section VIII - HIRED AGRICULTURAL LABOUR 15 years and over - (Do not include housework.)

72. Total weeks of paid labour hired during the past 12 months
- Note:** In calculating total weeks consider -
6 days or 48 hours as equivalent to 1 week
1 month equivalent to 4 weeks
1 year equivalent to 52 weeks.
73. How many paid agricultural workers do you now employ on a year round basis? None ☐
- (Do not include housework.)

| | Total weeks |
|--------|-------------|
| Male | 089 |
| Female | 090 |
| | 091 |

Section IX - OFF-FARM WORK DURING THE PAST 12 MONTHS

74. How many days did you (the operator) work off this holding at paid agricultural and non-agricultural work during the past 12 months? (Do not include exchange work) None ☐ days

Section X - RESIDENCE AND TYPE OF ORGANIZATION

75. How many months did you (the operator) live on this holding during the past 12 months? (Mark an "X" in appropriate box.)
- 1 ☐ 9 - 12 months 2 ☐ 5 - 8 months 3 ☐ 1 - 4 months 4 ☐ Did not live on this holding 093
76. Mark (x) the one box which best describes your holding:
- 1 ☐ An individual or family form (excluding partnerships and corporations) OR, a legally constituted company -
- 2 ☐ A partnership (with a written agreement) 4 ☐ with the shares owned mostly by you and your family, or
- 3 ☐ An institution or community pasture 5 ☐ with most of the shares owned by some other person(s) or business.
- 6 ☐ Other - Please specify type 094

Section XI - TOTAL VALUE OF AGRICULTURAL PRODUCTS SOLD DURING 1975

(Include landlord's share of products sold. Also include cash advances for stored grain, deficiency payments and patronage dividends.)

77. Mark (x) the one box showing the approximate value of the agricultural products sold in 1975:
- 1 ☐ Under \$1,200 4 ☐ \$ 5,000 - 9,999 7 ☐ \$25,000 - 34,999 10 ☐ \$ 75,000 - 99,999
- 2 ☐ \$1,200 - 2,499 5 ☐ \$10,000 - 14,999 8 ☐ \$35,000 - 49,999 11 ☐ \$100,000 or more 095
- 3 ☐ \$2,500 - 4,999 6 ☐ \$15,000 - 24,999 9 ☐ \$50,000 - 74,999

RECENSEMENT DE L'AGRICULTURE, 1976

DIRECTIVES

To English-speaking persons:

If this questionnaire in the French language has been left with you in error, and you wish to complete a questionnaire in English, please call the long distance operator and ask for ZENITH 0-1976. You will then be connected to the nearest Census office, without charge, that office will arrange for the English version of the questionnaire to be delivered to you.

Important:

- Remplissez ce questionnaire si vous exploitez une ferme, un ranch ou une autre exploitation agricole
— qui a une superficie d'une acre ou plus, et
— dont les ventes de produits agricoles se sont élevées à \$50 ou plus au cours des douze derniers mois.
- La production agricole comprend l'un ou l'autre des produits suivants:
 - bétail et volaille
 - produits d'origine animale
 - grandes cultures
 - légumes, fruits ou baies pour la vente
 - champignons, produits de serre et de pépinière
 - animaux à fourrure
- L'exploitant est la personne qui prend au jour le jour les décisions nécessaires à la bonne marche de l'exploitation.
- Si vous avez besoin de renseignements, demandez à la téléphoniste de composer ZENITH 0-1976; vous serez alors en communication, sans frais, avec le bureau du recensement le plus près.

N'oubliez pas:

- Remplissez le questionnaire le 1^{er} juin 1976 et conservez-le jusqu'au retour du représentant du recensement. Ne l'envoyez pas par la poste.
- Répondez à toutes les questions qui se rapportent à votre exploitation. Mettez un "X" dans les cases "Non" et "Aucun(e)", quand il y a lieu.
- Si possible consultez vos dossiers; autrement, donnez une estimation aussi précise que possible.
- N'indiquez pas les fractions d'acre, sauf quand on le demande; dans ce cas, donnez-les en dixièmes.
Exemple: 2½ acres de tabac 2 $\frac{5}{10}$
- Dans certaines régions du Québec, la superficie des terres est exprimée en arpents. Si votre exploitation se trouve dans une de ces régions, écrivez "Arpents" au haut du questionnaire et donnez vos réponses en arpents.

Déclaration confidentielle

Le recensement de 1976 est mené en vertu de la Loi sur la statistique. Les renseignements que vous nous donnerez seront gardés secrets et ne serviront qu'à produire des statistiques. La loi garantit que personne ne connaîtra les réponses que vous aurez données si ce n'est des employés assermentés de Statistique Canada qui s'exposent à des sanctions sévères prévues par la loi si jamais ils dévoilent des renseignements personnels à qui que ce soit. Personne d'autre, aucun autre ministère, n'aura accès à votre questionnaire de recensement.

Section I — EXPLOITANT, LE 1^{er} JUIN 1976

1. Nom et adresse de l'exploitant (Personne responsable de l'exploitation — propriétaire, locataire ou gérant)

| | | | |
|-------------------------------------------|---------------------|-------------|--|
| Nom de famille (En lettres moulées) | | | |
| Prénoms (En lettres moulées) | | | |
| Case postale, route rurale, chemin ou rue | | | |
| Adresse (En lettres moulées) | Bureau de poste | Code postal | |
| Numéro d'assurance sociale | Numéro de téléphone | | |

Section II — LOCALISATION, SUPERFICIE, MODE D'OCCUPATION ET VALEUR, LE 1^{er} JUIN 1976

2. Localisation — Inscrivez séparément chaque lot, section ou partie de section. Comptez toute terre exploitée, qu'elle vous appartienne ou qu'elle soit prise en location à bail ou autrement. Ne comptez pas les terres qui vous appartiennent et que vous donnez en location. Indiquez sur la première ligne la maison de ferme ou le siège de l'exploitation (principaux bâtiments ou entrée principale). Si plus d'espace est requis, employez la section "Remarques" ou attachez une feuille séparée.

SUPERFICIE ET DESCRIPTION DE LA TERRE EXPLOITÉE

| Quart de section et section a) | Township ou canton b) | Rang c) | Méridien d) | Possédée en propre; prise en location à bail ou autrement (précisez) e) | Superficie en acres f) |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|------------|----------------|----------------------------------------------------------------------------|---------------------------|
| Siège → | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| N° du lot ↑ | Rang ou concession ↑ | | | | 006 |
| 3. Quelle est la superficie totale des terres que vous exploitez? (Ce chiffre doit être le même que le total des superficies données à la question 2.) | | | | | 007 |
| 4. Mode d'occupation de la terre que vous exploitez (question 2, colonnes e) et f)) | | | | | 008 |
| Inscrivez a) Superficie possédée en propre. (Ne comptez pas les terres données en location) | | | | | |
| b) Superficie prise en location à bail ou autrement (Comptez les terres que vous exploitez à la part) | | | | | |
| (La somme de a) et b) doit donner la superficie totale déclarée à la question 3.) | | | | | |
| 5. Quelle est la valeur marchande estimative des bâtiments et de la terre que vous exploitez? (Question 3) (Comptez la valeur des logements de la ferme et la valeur de la terre et des bâtiments pris en location.) | | | | | 009 \$ /00 |

(dollars seulement)

Section III – SUPERFICIE DES GRANDES CULTURES, 1976

Inscrivez la superficie des cultures suivantes à récolter en 1976:

| | Acres |
|-----------------------------------------------------------------------------------------------------------------------------------------------|-------|
| 6. Blé de printemps (sans le durum) | 010 |
| 7. Blé durum | 011 |
| 8. Blé d'hiver (semé l'automne dernier)..... | 012 |
| 9. Avoine-grain (Déclarez à la question 21 l'avoine à couper pour le fourrage vert, le foin ou l'ensilage) | 013 |
| 10. Orge | 014 |
| 11. Céréales mélangées (deux céréales ou plus semées ensemble)..... | 015 |
| 12. Seigle d'automne (grain) (semé l'automne dernier) | 016 |
| 13. Seigle de printemps (grain) | 017 |
| 14. Sarrasin | 018 |
| 15. Pois secs des champs (Déclarez les pois de conserve à la question 32) | 019 |
| 16. Haricots secs des champs | 020 |
| 17. Maïs-grain (Déclarez le maïs d'ensilage ou le maïs fourrager à la question 18, et le maïs sucré ou de conserve à la question 32) | 021 |
| 18. Maïs d'ensilage ou maïs fourrager | 022 |
| 19. Luzerne et mélanges à la luzerne coupés ou à couper pour le foin, l'ensilage ou la semence | 023 |
| 20. Tout autre foin cultivé, coupé ou à couper pour le foin, l'ensilage ou la semence (sans la luzerne et les mélanges à la luzerne) | 024 |
| 21. Avoine à couper pour le fourrage vert, le foin ou l'ensilage | 025 |
| 22. Autres cultures fourragères (à couper pour le foin de céréales, le fourrage vert ou l'ensilage) Précisez | 026 |
| 23. Graine de lin | 027 |
| 24. Soya cultivé pour la graine | 028 |
| 25. Tournesol cultivé pour la graine | 029 |
| 26. Colza pour la graine | 030 |
| 27. Graine de moutarde | 031 |
| 28. Pommes de terre cultivées surtout pour la vente | 032 |
| 29. Tabac | 033 |
| 30. Betteraves sucrières cultivées pour le sucre | 034 |
| 31. Autres grandes cultures (carthame, plantes-racines pour le fourrage, etc.) Précisez | 035 |

Section IV – AUTRES SUPERFICIES

Inscrivez la superficie occupée en 1976:

| | | |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------------|
| 32. Légumes cultivés surtout pour la vente | 036 | 10 |
| 33. Fruits de verger (25 arbres ou plus, qu'ils soient productifs ou non) | 037 | 10 |
| 34. Petits fruits (fraises, raisins, etc.) cultivés surtout pour la vente ... Précisez | 038 | 10 |
| 35. Produits de pépinière, fleurs à couper et bulbes secs cultivés en plein air surtout pour la vente | 039 | 10 |
| 36. Serres et champignonnières | 040 | pieds carrés |
| 37. Terre améliorée pour pâturage ou pacage (améliorée par ensemencement, drainage, irrigation, fertilisation ou destruction des broussailles ou des mauvaises herbes. Ne comptez pas la superficie à couper cette année pour le foin, l'ensilage ou la semence) | 041 | |
| 38. Jachères | 042 | |
| 39. Autres terres améliorées (basses-cours, chemins, jardins potagers, terre améliorée mais inexploitée, etc.) | 043 | |
| 40. Terres à bois et boisés de ferme (lots boisés, érablières, brise-vent, terrains déboisés, etc.) | 044 | |
| 41. Autres terres non améliorées (terre à foin non améliorée, pâturages naturels, marécages, marais, etc.) | 045 | |
| 42. Total, questions 6 à 41 (Doit être égal à la superficie totale de l'exploitation, question 3) | | |

Section V - BÉTAIL DANS L'EXPLOITATION, LE 1^{er} JUIN 1976

(Comptez le bétail en pâturage ou engraisé pour d'autres et les animaux qui vous appartiennent et qui sont gardés dans des pâturages communautaires.)

ESPÈCE BOVINE

43. Nombre total de gros bovins et de veaux **Aucun** ☐
(Si vous avez répondu "Aucun", passez à la question 50.)

a) Vaches et génisses de 2 ans et plus

b) Génisses de 1 an et de moins de 2 ans

c) Bouvillons de 1 an et plus

d) Taureaux de 1 an et plus

e) Veaux de moins de 1 an
(La somme de a) à e) doit donner le nombre déclaré à la question 43.)

PARMI LES VACHES ET LES GÉNISSES DÉCLARÉES CI-DESSUS, COMBIEN SONT:

44. Des vaches et des génisses, de 2 ans et plus, en lactation ou devant être traitées?

45. Des génisses, de 1 an et de moins de 2 ans, élevées principalement pour la production laitière?

PRODUCTION DE LAIT HIER:

46. Combien de vaches et de génisses avez-vous traitées hier?

47. Combien de livres de lait avez-vous obtenues hier?

LIVRAISONS DE LAIT, MAI 1976

48. Avez-vous expédié du lait et (ou) de la crème à une laiterie ou à une beurrierie en mai? { Non ☐ - Passez à la question 50
Oui ☐ - Répondez à la question 49

49. Où avez-vous expédié la plus grande partie de votre production de lait et (ou) de crème en mai? (Faites un "X" dans la case appropriée.)

1. ☐ Usine de lait de consommation 2. ☐ Usine de lait de transformation 3. ☐ Beurrierie 4. ☐ Ne sais pas 056

ESPÈCE PORCINE

50. Nombre total de porcs (tous âges) **Aucun** ☐
(Si vous avez répondu "Aucun", passez à la question 52.)

a) Porcs de 6 mois et plus (truies, verrats et porcs de boucherie)

b) Porcs de 3 mois et de moins de 6 mois

c) Porcs de moins de 3 mois (nés depuis le 1^{er} mars)
(La somme de a) à c) doit donner le nombre déclaré à la question 50.)

51. Parmi les porcs de 6 mois et plus (question 50 a), combien sont des truies destinées à la reproduction? (Y compris les jeunes truies)

ESPÈCE OVINE

52. Nombre total de moutons et d'agneaux **Aucun** ☐
(Si vous avez répondu "Aucun", passez à la question 53.)

a) Agneaux de moins de 1 an

b) Brebis, béliers et moutons de 1 an et plus
(La somme de a) et b) doit donner le nombre déclaré à la question 52.)

AUTRES ANIMAUX

53. Espèce et nombre des autres animaux (chevaux, chèvres, visons, lapins, chinchillas, etc.) Précisez **Aucun** ☐

Section VI - VOLAILLE, LE 1^{er} JUIN 1976

POULES ET POULETS

54. Nombre total de poulets (poules, poulettes, coqs, poussins, etc., y compris les poulets à griller) **Aucun** ☐
(Si vous avez répondu "Aucun", passez à la question 58.)

55. Poules et poulettes pour la ponte:

a) Poules et poulettes, de 5 mois et plus, gardées pour la ponte

b) Poulettes et poussins, de moins de 5 mois, destinés à la ponte

56. Autres poulets pour la production de viande contingentée:

a) Poulets à griller y compris les Cornish (tous âges)

b) Poulets à rôti (tous âges)

57. Autres poules et poulets
(La somme des questions 55 à 57 doit donner le nombre déclaré à la question 54.)

AUTRE VOLAILLE

58. Dindons (tous âges) **Aucun** ☐

59. Oies (tous âges) **Aucune** ☐

60. Canards (tous âges) **Aucun** ☐

Section VII – MACHINES ET MATÉRIEL, LE 1^{er} JUIN 1976

Indiquez le nombre et la valeur marchande actuelle des machines et du matériel suivants qui se trouvent dans votre exploitation le 1^{er} JUIN 1976, quel qu'en soit le propriétaire.
Ne comptez pas les vieilles machines hors d'usage.

| | | | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----|--------|
| 61. Automobiles | | \$ | /00 |
| 62. Camions | 076 | \$ | /00 |
| 63. Tracteurs (autres que les tracteurs de jardin) | 077 | \$ | /00 |
| 64. Moissonneuses-batteuses: a) automotrices | 078 | \$ | /00 |
| b) tractées | 079 | \$ | /00 |
| 65. Andaineuses: a) automotrices | 080 | \$ | /00 |
| b) autres | 081 | \$ | /00 |
| 66. Presses ramasseuses à foin | 082 | \$ | /00 |
| 67. Moissonneuses de plantes fourragères | 083 | \$ | /00 |
| 68. Trayeuses | 084 | \$ | /00 |
| 69. Grand réservoir à lait | 085 | \$ | /00 |
| 70. Valeur des autres machines et de tout autre matériel | 086 | 087 | \$ /00 |
| (Charrues, herbes, semeuses, accessoires de tracteur, épandeurs de fumier, faucheuses, conditionneurs, râteliers, pulvérisateurs, batteuses, matériel d'irrigation, machines pour la récolte de pommes de terre, remorques, petits outils, etc.) | 088 | | \$ /00 |
| 71. Valeur totale des machines et du matériel | | \$ | /00 |
| (Total des valeurs déclarées aux questions 61 à 70.) | | | |

Section VIII – MAIN-D'OEUVRE AGRICOLE ENGAGÉE

de 15 ans et plus – (Sans les domestiques)

72. Nombre total de semaines de **travail payé** au cours des 12 derniers mois

| | |
|--------|-----|
| Hommes | 089 |
| Femmes | 090 |

Note: Dans le calcul du nombre total de semaines comptez –
 6 jours ou 48 heures comme l'équivalent de 1 semaine
 1 mois comme l'équivalent de 4 semaines
 1 année comme l'équivalent de 52 semaines. 091

73. Combien de travailleurs agricoles **rémunérés** employez-vous actuellement à **longueur d'année**? Aucun ☐ (nombre)

Section IX – TRAVAIL HORS FERME AU COURS DES 12 DERNIERS MOIS

74. Combien de jours avez-vous (l'exploitant) travaillé en dehors de l'exploitation à des travaux agricoles ou non agricoles rémunérés au cours des 12 derniers mois? (Sans le travail d'échange)... jours

Section X – RÉSIDENCE ET FORME JURIDIQUE

75. Combien de mois avez-vous (l'exploitant) habité dans cette exploitation au cours des 12 derniers mois?
(Faites un "X" dans la case appropriée.)

1 ☐ 9-12 mois 2 ☐ 5-8 mois 3 ☐ 1-4 mois 4 ☐ N'y ai pas habité

76. Faites un (x) dans la case qui décrit le mieux votre exploitation (ne cochez qu'une seule case):

1 ☐ Ferme individuelle ou familiale (sans les sociétés en nom collectif et les entreprises constituées en corporation) OU compagnie juridiquement constituée en corporation – 6 ☐ Autre (précisez) _____

2 ☐ Société en nom collectif (avec convention écrite) 4 ☐ dont la plupart des actions sont détenues par vous et votre famille, ou

3 ☐ Institution ou pâturage communautaire 5 ☐ dont la plupart des actions sont détenues par d'autres personnes ou une autre entreprise.

Section XI – VALEUR TOTALE DES PRODUITS AGRICOLES VENDUS EN 1975

(Y compris la part des produits vendus qui revient au propriétaire. Déclarez les avances pour le grain entreposé, les paiements d'appoint et les ristournes.)

77. Faites un (x) dans la case indiquant la valeur approximative des produits agricoles vendus en 1975:

| | | | |
|---------------------------------------------|----------------------------------------------|----------------------------------------------|------------------------------------------------|
| 1 <input type="checkbox"/> Moins de \$1,200 | 4 <input type="checkbox"/> \$ 5,000 à 9,999 | 7 <input type="checkbox"/> \$25,000 à 34,999 | 10 <input type="checkbox"/> \$ 75,000 à 99,999 |
| 2 <input type="checkbox"/> \$1,200 à 2,499 | 5 <input type="checkbox"/> \$10,000 à 14,999 | 8 <input type="checkbox"/> \$35,000 à 49,999 | 11 <input type="checkbox"/> \$100,000 et plus |
| 3 <input type="checkbox"/> \$2,500 à 4,999 | 6 <input type="checkbox"/> \$15,000 à 24,999 | 9 <input type="checkbox"/> \$50,000 à 74,999 | |

Publications of the 1976 Census of Canada

This bulletin is one of a series of volume reports of the 1976 Censuses of Population, Housing and Agriculture.

Most of the bulletins in the regular Volume Series are data oriented. Other reports containing more methodological, interpretative and evaluative content, are also issued. These are as follows:¹

- (a) 1976 Census Administrative Report.
- (b) 1976 Census Quality of Data Series.
- (c) 1976 Census Research Series.

Also available on request is a series of Working Documents developed largely for internal verification of basic geographical and population hierarchies, which could provide useful information to the outside user.

Users will note that the majority of census publications are colour-coded to identify with the four themes central to the presentation and to maintain comparability with the 1971 series, e.g., blue for Geographical and Demographic content, brown for Housing, Household and Family data, red for Economic Characteristics and gold for the series based on Agriculture.

These reports are listed in the 1976 Census Catalogue which can be obtained free of charge from:

Publications Distribution,
Room 1200, Statistics Canada,
Ottawa, Ontario,
K1A 0T6.

To order census publications, send a cheque or money order made payable to the Receiver General for Canada, to the above address. In addition to published documents, the Census of Canada can provide other products and services about census: data on microform (film or fiche), computer tapes, computer print outs, user specified tables, maps, geographic files, geographic lists, etc.

For information, write:
Census Information Services,
Census of Agriculture Division,
Ottawa, Ontario,
K1A 0T6.

or call (613) 994-9321.

Inquiries about census and other Statistics Canada information can also be directed to User Advisory Services of Statistics Canada's Regional Offices located in: St. John's, Halifax, Montréal, Ottawa, Toronto, Winnipeg, Regina, Edmonton and Vancouver.

¹ It should be noted that these publications are generally released somewhat later than the data reports.

Publications du recensement du Canada de 1976

Ce bulletin fait partie de la série des publications du recensement de 1976 de la population, du logement et de l'agriculture.

La plupart des bulletins de la série ordinaire des volumes présentent des données. On publie également d'autres bulletins dont le contenu vise plutôt la méthodologie, l'interprétation et l'évaluation. Ces bulletins sont les suivants¹:

- a) Rapport administratif du recensement de 1976.
- b) Série relative à la qualité des données du recensement de 1976.
- c) Série du recensement de 1976 relative à la recherche.

Vous pouvez aussi vous procurer sur demande une série de documents de travail, servant surtout à la vérification interne des catégories géographiques et démographiques de base, qui pourraient fournir des renseignements utiles aux utilisateurs à l'extérieur de Statistique Canada.

Les utilisateurs constateront que la plupart des publications du recensement sont classées par couleur, chaque couleur correspondant à l'un des quatre thèmes du recensement; cela permet d'assurer la comparabilité avec les séries de 1971; ainsi, le bleu réservé aux publications de nature géographique et démographique, le brun, aux bulletins sur le logement, les ménages et les familles, le rouge, aux publications de nature économique et la couleur or, à la série relative à l'agriculture.

Ces bulletins figurent au **Catalogue du recensement de 1976** que vous pouvez obtenir gratuitement auprès de:

Distribution des publications
Pièce 1200, Statistique Canada
Ottawa (Ontario)
K1A 0T6.

Envoyez vos commandes de publications du recensement à cette même adresse en y joignant un chèque ou un mandat postal à l'ordre du Receveur général du Canada. Outre les publications, le Recensement du Canada offre divers autres produits et services: données en microcopie (film ou fiche), bandes pour ordinateurs, états mécanographiés, totalisations spéciales, cartes, fichiers et listes géographiques, etc.

Pour obtenir des renseignements, écrivez à
Information recensement
Division du recensement de l'agriculture
Statistique Canada
Ottawa (Ontario)
